Course Information

Course Prerequisites: ACCT 205, BGEN 222, BGEN 205, MGT 305, junior class standing, 2.5 gpa earned at Concord, and approved internship contract

Catalog Description: A supervised business internship in organizations in private and public sectors. This course provides students with the opportunity to apply theoretical knowledge to practical situations in an actual organizational setting. The field internship is open to all students; however, no credit is granted for prior work. Internships must be completed during the semester in which the student has registered, without exception. (1-6 credit hours, the total hours earned are to be pre-approved/pre-determined by the Coordinator upon receipt of Business-Related Learning Objectives submitted by the employer.)

Students are required to have a minimum of 120 contact hours in the internship placement over the course of the semester to earn 3 academic credits on a pass/fail basis only. Credit is awarded for the **knowledge gained, not the work completed**.

Course Focus/Rationale: Internships are strongly recommended for all Business majors. These unique experiences provide excellent forums for students to apply theoretical knowledge to a business environment, work with the latest technology, improve communication skills, and build confidence in themselves and their abilities

The field internship enhances and reinforces your understanding of academic theory, and this experience is more than an opportunity to just earn credit hours but also to gain career-related work experience. It is an opportunity to set yourself apart from your competition – other students – at graduation time. A good letter of recommendation from a cooperating supervisor will carry a great deal of weight with prospective employers and would likely be available to any student after successfully completing an internship.

Participation in an Internship, shows initiative and motivation. Exhibit these characteristics while at your cooperating firm. Dress and act professionally, even when those around you do not. Remember – they are already employed in the workplace. Also, keep in mind that you are marketing an important commodity to your cooperating firm – yourself. Realize that some Field Internship Experiences can evolve into full time positions upon graduation, so do a good job. Keep this in mind as you progress through the semester. Apply your theoretical knowledge, improve your interpersonal communication skills, and build confidence in yourself and your abilities.

Course Learning Goals and Objectives

Before a student is enrolled in the Business Internship course, it is necessary that the cooperating organization/internship supervisor and the student determine what responsibilities and/or learning opportunities are essential for the internship position. These objectives are used to set goals that can be evaluated by the Organizational Supervisor and the Internship Coordinator to ensure that internship placement would provide adequate knowledge/experience equivalent of three credit hours of academic credit which are equal to one course for a semester. It is important that the stated learning objectives demonstrate incremental or new learning.

Requirements for Evaluation of the Internship Experience

1. Organizational Supervisor evaluation of completed internship learning objectives.
 2. Organizational Supervisor evaluation of the interns' professional work habits and abilities.
 3. Completion of the Internship Reflection Paper (details of the assignment are provided in the Internship Packet)
 4. Presentation of the intern's experience during a scheduled Business Department Symposium – for spring 2019 interns the Internship Symposium will be held Thursday, April 25 AND Thursday, May 2, at 11:00 am in Rahall 318. You will be provided with your presentation time by April 1.
